Research Report Proposal Template

General requirements

You must write your own research report proposal and the report needs to follow the Fair Use Rule at:

https://www.nolo.com/legal-encyclopedia/fair-use-rule-copyright-material-30100.html

when using copyrighted material. Under the "fair use" rule, another author may make limited use of the original author's work without asking permission for purposes such as criticism, comment, news reporting, teaching (including multiple copies for classroom use), scholarship, or research—and none of the above are an infringement of copyright.

When preparing a research report it's necessary to supply a clear statement describing the proposed area of research (a research proposal). Furthermore, fake news, false narratives, confirmation bias, and a host of other violations of the Journalism Code of Ethics, Practical Logic & Sapience Guidelines at:

https://d68a3b84-6415-475d-818c-
ab8cdd34b311.filesusr.com/ugd/3c625c_f33069b7391d4bd4a6012e0b80630fcd.pdf

are not permitted and are contrary to the telos of the SAPIENT Being LLC and its publishing partner Fratire Publishing LLC.

Being in alignment and congruent with the SAPIENT Being's mission and vision statements helps prepare you to frame the proposal so it aligns with one of the three (3) SAPIENT Being programs below:

- ✓ **Make Free Speech Again On Campus (MFSAOC)**

- ✓ **World Of Writing Warriors (WOWW)**

- ✓ **Sapient Conservative Textbooks (SCT)**

Length: From one to three pages is often suitable, depending on the area of research.

Detail: The following outline may be used as a guide. You should consider each of the areas that will be relevant to your research.

Minimum: The recommended minimum requirements are identified with an asterisk (*).

Prior to submission of a research report proposal, you can contact SAPIENT Being CEO Corey Lee Wilson sapientbeing@att.net or (951) 638-5562 for more information, questions, and comments.

Research topic/title*

An initial working title should be provided and should describe the content and direction of your project. For example: A template for assisting research students in the development of a research proposal.

PROJECT DESRIPTION

Background

What is already known or unknown? Set the scene.

Aims*

What do you want to know, prove, demonstrate, analyze, test, investigate or examine? List your project aims in a logical sequence. For example:

The aim of this project is to:

- ✓ Provide an outline of a research proposal
- ✓ Enable a prospective student to prepare a research proposal

Methodology*

- ✓ How do you anticipate you will achieve these aims?*
- ✓ What do you need? (specify any special equipment, software, or material) Can you access necessary data or expertise?
- ✓ Do you require particular resources?*
- ✓ Are there barriers or pitfalls?
- ✓ Does the project involve human ethics, animal ethics or safety implications?
- ✓ Is travel or fieldwork required? If so, where to, how long and at what intervals?

Expected outcomes, significance, or rationale

- ✓ Why is it important?
- ✓ What do you expect it will deliver?
- ✓ What are the expected outcomes?
- ✓ Establish the importance of your project by highlighting its originality or why it is worth pursuing. Highlight the benefits, positive expected outcomes, or innovative applications of knowledge.

Timetable*

Indicate the timeframe for each broad stage considering literature surveys, data collection, production, modelling, review, analysis, testing, reporting, chapter and thesis writing, and thesis submission date.
